### JAVELINA TECHNOLOGY AND ENGINEERING CAREER FAIR (JTEC)

#### AARC Environmental, Inc.
- **Website:** www.aarcenv.com
- **Positions:**
  - **About Us:** With an experienced staff of competent, responsible professionals, AARC provides optimal solutions to complex regulatory and environmental issues with reliable, effective and timely support to all of our public and commercial clients. Our accomplished staff of professional engineers and scientists are certified in environmental engineering, industrial hygiene, hazardous materials, and safety. In addition, we have specialists in safety science, chemistry, environmental science, biomedicine, geology, technical writing, and regulatory affairs. AARC is proud to offer high quality and cost-efficient environmental services that stay ahead of the regulatory curve so our clients are never caught looking the wrong way.
  - **Services:** Environmental Services, Industrial Hygiene, Health & Safety, Site Specific Planning.

#### Baker Hughes
- **Website:** www.bakerhughes.com
- **Positions:**
  - **Description:** Baker Hughes Drilling Fluids is a world leader in developing and applying innovative technology to the petroleum industry.
  - **Overview:** As a leader in the oilfield services industry, Baker Hughes offers opportunities for qualified people who want to grow in our high performance organization. Baker Hughes’ seven divisions provide products and services for oil and gas wells. Our leading technologies and our ability to apply them safely and effectively create value for our customers and our shareholders. Engineers, scientists, technicians and business professionals can make their careers at Baker Hughes in research, development, manufacturing, field operations, sales, finance, IT, marketing and human resources.
  - **About Us:** A top-tier oilfield service company with a century-long track record, Baker Hughes delivers solutions that help oil and gas operators make the most of their reservoirs. Collaboration is the foundation on which we build our business. We listen to our clients to understand their unique challenges and then develop solutions designed to help manage operating expenses, maximize reserve recovery, and boost overall return on investment throughout the life of an oil or gas asset. With 58,000-plus employees in more than 80 countries, our local geomarket teams work side by side with customers to engineer reliable application-specific products and services that create more value from the reservoir whether the application is deepwater, unconventional hydrocarbons or production and water management.
    - Our history of technology innovation is a cornerstone of our success. Local teams are supported by global centers of excellence where scientists push the boundaries of value-adding technology to find solutions for progressively more complex technical challenges.
    - At dedicated innovation centers, scientists conduct applied and game-changing critical research. We collaborate with customers to jointly develop technology for specific industry needs at regional technology centers. Engineers and scientists at our product centers work on next-generation products and services for drilling and evaluation, completions and production, and fluids and chemicals.
    - At Baker Hughes, we are looking forward to the next 100 years of working side by side with our customers to continue expanding the limits of oil, gas and alternative energy drilling, completion and production through innovation problem solving.

#### Bay, LTD.
- **Website:** www.bayltd.com
- **Positions:**
  - **About Us:** Bay Ltd., with offices and operations throughout the U.S. Gulf Coast, Latin America, Canada, and other International locations, is a full-service multi-discipline construction, fabrication, and maintenance
company. The company provides its services to industries involved in refining, chemical and petrochemical manufacturing, gas processing and transmission, offshore exploration and production, power generation, and refined products storage and transmission. The company also provides infrastructure services, such as building roads, highways, bridges, and marine facilities for local, state, and federal agencies as well as private industry.

Bay has over 55 years of experience in heavy industrial contracting completing "grassroots" facilities, new process units, plant revamps and upgrades, refinery expansions, turnarounds, and ongoing routine maintenance services. Experienced management personnel, supervisors, and craft professionals, capable of completing complex, schedule-sensitive projects, are available within each service group. A significant inventory of company-owned tools and construction equipment supports the field efforts of Bay's construction, maintenance, and turnaround crews.

Bay's heavy fabrication services are delivered through ISO 9001:2008 certified shop and yard fabrication facilities and include ASME pressure vessels, towers, and drums; process piping utilizing carbon steel, stainless steel, and alloy materials; modular process units and pipe racks; and offshore decks, jackets and complete production topsides fabrication and assembly. The fabrication centers feature deep water dock facilities that enable delivery of finished projects to domestic and international customers.

While delivering extensive knowledge from its long tenured management team and craft professionals, Bay is continuously upgrading project management systems, safety and quality work processes, and overall project administration and reporting capabilities to meet the demands of business partners. Bay is committed to providing solutions to the most challenging construction projects in the industry and to the project management systems that support a successful execution.

**Services**: Industrial Construction, Maintenance & Turnarounds, Modular Fabrication, Fabrication, Offshore Construction & Maintenance, Equipment, Heavy Hauling & Rigging, Instrument & Electrical, Storage Tanks, Civil & Highway, Scaffolding, Industrial Dismantling.

**C&J Energy Services**

**Website**: http://www.cjenergy.com/

**Positions:**

**Overview**: C&J Energy Services was founded in 1997 and the company soon established itself as a premium provider of hydraulic fracturing and coiled tubing services. In 2011 we became a publicly traded company listed on the New York Stock Exchange under the symbol CJE. That same year we acquired Total Equipment and Service, our primary equipment supplier, thus adding extensive manufacturing capability to our offerings. In 2012 we acquired Casedhole Solutions, a premium provider of perforating, pipe recovery, wireline logging, pressure pumping and other services.

Celanese
Website: www.Celanese.com
Positions:
About Us: Celanese is a global technology and specialty materials company that engineers and manufactures a wide variety of products essential to everyday living. As a recognized product and process technology innovator, we help to create applications that meet the needs of our customers worldwide.
Our highly-diversified product portfolio serves a broad range of end-use applications including paints and coatings, textiles, automotive applications, consumer and medical applications, performance industrial applications, filter media, paper and packaging, chemical additives, construction, consumer and industrial adhesives, and food and beverage applications.
Our products hold leading positions in the industries we serve worldwide and are complimented by a large global production capacity, operating efficiencies, proprietary production technology and competitive cost structures.
Based in Dallas, Texas and with an employee base of approximately 7,600 worldwide; we serve our customers through operations located primarily in North America, Europe and Asia with 27 production facilities and an additional 8 strategic affiliate production facilities. Our net sales totaled $6.8 billion in 2011, with approximately 73% generated outside of North America.

Champion Technologies, Inc.
Website: http://www.champ-tech.com/
Positions:
Overview: Leading chemistry. Advancing energy. Champion Technologies is a global specialty chemical company with 3,200+ employees in over 100 locations in more than 50 countries delivering innovative and engineered program for upstream and midstream oil and gas markets. Our integrated offering combines sustainable chemistry, technology, and service to enhance your world.
Markets Served:
Arctic | Conventional | Deepwater | Enhanced Oil Recovery | Heavy Oil | Midstream | Offshore | Oil Sands | Shale

Originally started in West Texas, USA 59 years ago, Champion Technologies, a Permian Mud Service company, has become one of the largest global oilfield production chemical companies. We’re expanding our global technology, supply chain, and service footprint and reach every day. From Texas to Singapore to Scotland to Brazil to Australia to Canada, we are located where you need us most in the centers and frontiers of the oil & gas industry across the globe.

Why Choose Champion Technologies?
Since our humble West Texas beginnings, to our status today as one of the largest providers in our industry, customer service and product performance has always been at the core of every decision we make. From ensuring our field personnel are available to partner with you onsite and answer questions 365/24/7, to investment in state-of-the-art field and laboratory based research, development and diagnostic equipment, to advanced training programs that make sure our people know your problems and how to solve them, to stringent quality and sustainability standards, to a robust support infrastructure and supply chain – it all helps guarantee we produce when you need it most.
Services: Flow Assurance, Integrity Management, Phase Separation, Scale Control, Shale Oil & Gas, Water Solutions
Dimensional IT Solutions
Website: http://www.dimensionalit.net/
Positions:
Overview: Vision & Values
We leverage the power of the market to create an effective solution to achieve the best result without compromising quality. We continuously add highly technical consultants to our growing list of partners to ensure we are optimally positioned in today’s world of growing technical competition. One of the best ways to understand our value is to call one of our representatives today and ask for reference.

Integrity and Honesty
We are open and honest with all individuals in our business: each other, our clients and our suppliers. We keep all commitments we make, internally and externally.

Loyalty
We respect one another as persons in all situations, giving support and remaining committed to each other’s welfare and success.

Service Excellence
We are committed to delivering high-quality results for every client, large or small. We develop and maintain high standards of service and product delivery, and strive both as individuals and teams for high levels of productivity, performance and industry excellence.

Why Dimensional IT Solutions?
Dimensional IT Solutions aims providing our customers with software solutions that incorporate best-of-breed IT products and best-practice IT solutions. Our core competency lies in enabling businesses to realize the full potential of their IT investments by building business value into technology solutions.

Services: Consulting & Tuning Services, Technology Infrastructure Services, Staff Augmentation Services, Technical Support & Customer Care, Back Office & Data Entry Services.

- Company Motto: Work Hard, Play Hard.
- Our Promise: We finish each day knowing that not only was the job done, it was done right.

**Services:** Consultation, Concept Development, Code Research, Document Production and Support, Daylight Modeling, Realistic Computer-Generated Lighte

---

**IBC Bank Internal Audit Services**

**Website:** www.IBC.com

**Positions:**

**Overview:** Internal Audit services and consulting for bank/financial services holding company.
About Us: Doing More Since 1966
IBC was founded in 1966 to meet the needs of small businesses in Laredo, Texas. Today, it serves as the flagship bank of International Bancshares Corporation. Since its opening, IBC has grown from less than $1 million in assets to more than $11.8 billion, making it one of Texas’ largest holding companies. IBC now serves 88 communities throughout Texas and Oklahoma with 217 branches and more than 370 ATMs and provides full service banking seven days a week. Furthermore, customers can bank during late hours that are convenient for them and can even bank while they shop at many HEBs, Wal-Marts, Krogers, Randalls, and inside local Malls.

Performance
In 2010, Hispanic Business Magazine ranked IBC as the number one Hispanic-owned financial institution in the nation. The bank was also the number one Hispanic-owned business in Texas and fourth nationally. Additionally, Forbes Magazine ranked IBC in 10th place on their America’s Best Bank’s list. On their 2008 list of Top Performing Banks, American Bankers Association placed IBC as #11. In 2008, IBC Bank was recognized by Bank Director Magazine as one of the nation’s largest banks and thrifts with the most assets and highest five-year return on equity. IBC placed in the top 150 out of more than 8,500 U.S. banks in the two categories.
IBC is proud of its record of never having experienced a down year, a record that continues to inspire confidence among our customers.

Our Business Philosophy
IBC’s successes have come as a result of an aggressive and innovative attitude to “Do More” for our customers and our communities. This philosophy of investing time and resources does not end in the development of products and services. We encourage our more than 3,700 employees and officers to serve on boards and to volunteer in civic groups and charitable organizations supporting the arts, education, neighborhood revitalization programs, economic development, medical research and many other causes. “We Do More” reflects our commitment and dedication to the growth and success of our customers and our communities. It means we go above and beyond to respond to our customers’ needs. In 2009, the Employee Advisory Boards, corporate wide, spent more than 23,000 hours volunteering with various charities.

Excellence in Performance
For dedication to the community, IBC was awarded the Cornerstone Award from the Texas Bankers Foundation in 2005 for It’s a Brighter Christmas, a holiday-focused giving initiative and again in 2009 for Operation Care Drop, a donation drive benefitting our troops. In 2010, IBC Bank was awarded the LIFE Award from the Texas Banker’s Foundation for its Money Buzz program, a financial literacy program that teaches students the importance of saving.
IBC has also been honored by Texas Governor Rick Perry with the Governor’s Volunteer Award. Furthermore, National Banker’s Association has awarded IBC their coveted High Performance Bank Award many times in recognition of leadership qualities and excellence in overall performance and service. IBC has also received the prestigious George Washington Honor Medal from the Freedoms Foundation at Valley Forge and has been recognized time and time again by United Way with the Corporate Excellence Award for its strong community support.
The phenomenal success of IBC and its perfect record of consecutive years of growth and profitability are directly attributed to the dynamic leadership of Chairman of the Board and CEO Dennis E. Nixon and the IBC team that surrounds him.
For his outstanding generosity, United Way honored Nixon with its acclaimed Platinum Corazón Award. His myriad of civic involvements, awards and recognitions have been on a national and international level. Other recognitions include the Junior Achievement Business Hall of Fame Award, the Paul Harris Fellow Award given by Rotary International for outstanding community service, and the Eleanor Roosevelt Humanities Award given by the State of Israel for outstanding services to humanity.
In 2006, Dennis Nixon was inducted into the prestigious Texas Business Hall of Fame. In 2007, he was elected to serve on the board of directors of the United States Chamber of Commerce, and in 2008 he received the International Citizen Award from the World Affairs Council of San Antonio. Most recently, Nixon was selected to be the recipient of the Mr. South Texas 2010 honor by the Washington’s Birthday Celebration Association.

Keppel Amfels, LLC
Website: www.KeppelOM.com

Positions:
Description: Strategically located at the gateway of the Gulf of Mexico, Keppel AmFELS serves one of the most robust oil and gas markets in the world. Located in Brownsville, Texas, Keppel AmFELS reinforces the Keppel Offshore & Marine Group's presence in the Gulf of Mexico, and strategy to be near its markets and customers. Since our establishment in 1990, Keppel AmFELS has built up a solid track record and capabilities in the construction, refurbishment, conversion, life extension and repair of a complete range of mobile drilling rigs and platforms. Today, we are the foremost offshore shipyard in the Gulf of Mexico, backed by comprehensive facilities and a highly-skilled workforce. These qualities have enabled us to deliver premium rigs on time, within budget and safely, placing Brownsville city on the global map for world class offshore solutions. As an active corporate citizen, we are committed to the growth and development of Brownsville city and its people, championing causes in community-building, education and welfare. We also partner institutions such as the University of Texas and United Way to improve the literacy, employability and wellbeing of our community. On 23 March 2005, Keppel AmFELS was officially accepted as a valued "son" of Cameron County. This day was also declared Keppel AmFELS Day in the Senate House in Austin.

Marlabs
Website: www.MarlbsCampus.com

Positions:
Description: Finding a great place to start the journey that will propel you in to greater heights is the key for any accomplishment. Check this snapshot about Marlabs
Marlabs was founded by Siby Vadakekkara and S. Balram. It has been around since 1996 and is headquartered in Piscataway, NJ. In the past 16 years, Marlabs quickly grew in to one of the foremost IT services organizations with over 2100 employees. We are a Global Technology Services and Solutions Company with a presence in North America, South America, and Asia gratifying 100+ blue-chip clients across multiple verticals. Marlabs offers a wide range of Information Technology services and has deep domain expertise across industry verticals including Healthcare, BFSI, Airline Services and Transportation, Energy and Utilities, Media, Retail, Government and Education.

Application Development and Maintenance, Information Security, IT Infrastructure Services, Testing, Packaged Implementation and support and Product Engineering are the beginning of a range of Services that Marlabs offers to various industries. The Technology Solutions that we cater includes Cloud, Mobility, BI-Analytics, Microsoft, Java, Open Source and ERP.
Marlabs has 2 campuses in the US –the Bethlehem, PA Campus and the Piscataway, NJ Campus – and has set the bar up high through its campus hiring programs. The main campus site at Bethlehem, also known as Center of Excellence (CoE), plays a huge part in the meticulous way we train and place fresh talent. Marlabs differs from other companies because our approach not only concerns the functional aspects of a job but also the technological aspect that gears our graduates to climb up the corporate ladder, take the reins of tomorrow’s technology leadership in the industry and grow to their full potential. In addition, Marlabs proudly holds the banner high for the best on-site in-class free training and placement a global company could ever provide.
CoE also provides a global scope with its training and placement which has served as the core of Marlabs’ success. The CoE specializes in the areas of Cloud Computing, Mobile Technologies, Information Security/GRC, BI Analytics, Open Source/Java, Microsoft, and ERP technologies.

Overview: Marlabs is a US based global technology services and solutions company with a presence in North America, South America, Europe and Asia providing avant-garde services to Fortune companies. As a Gold partner with Microsoft, Oracle and a Premier business partner of IBM and all leading technology companies, Marlabs is in the hall of fame of Inc500 and, as well as being ranked by Deloitte and Touche as one of the fastest growing companies, Marlabs owns technology Center of Excellence (CoE) in the US to help employees in continued learning and innovation with cutting edge technologies and solutions to consistently stay at the forefront of the technology wave. Positions open in • Application / Database Development • Web/ Mobile development • ERP/ CRM.
Pape-Dawson Engineers, inc.  
**Website:** http://www.pape-dawson.com/  
**Positions:**  
**Overview:** Being referred to as “the largest and most influential engineering firm in South and Central Texas” by many within our industry is secondary to being called a “partner” by our clients.  

The Pape-Dawson teams in San Antonio, Austin, Houston and Fort Worth are qualified to expertly handle civil engineering and surveying projects. The powerful combination of several decades of experience, a broad range of service capabilities and key relationships within the community are what have made us a valuable contributor to our clients’ team.  

Whether the need is for a comprehensive engineering plan for a multi-use development, or a survey, our goal is to work with the client from the very beginning. Pape-Dawson has the expertise and the attention to detail to handle the most important project of all — yours.  

**Services:** Land Development, Transportation, Water Resources, Environmental, Surveying, Support Services.

Sherwin Alumina Co.  
**Website:** www.SherwinAlumina.com  
**Positions:**  
**Overview:** The Sherwin Alumina Company LLC, formerly Reynolds Metals Company-Sherwin Plant, has produced alumina at this location for more than fifty years beginning in 1953.  
The primary function of the Sherwin plant is to extract aluminium oxide, called alumina, from bauxite ore. Sherwin, a “World Class” company, is ISO 9001 certified. The plant is capable of producing 1.4 million tonnes of smelter grade alumina and 300,000 tonnes of chemical grade alumina hydrate per year. Situated on the Texas Gulf Coast, Sherwin Alumina is located near North American smelting operations. Our deep water port, accessible by vessels with displacements of up to 60,000 tonnes, is the primary transportation mode for incoming bauxite and outgoing alumina. We also ship to customers by barge, rail and truck.

Softnice  
**Website:** www.softnice.com  
**Overview:** SoftNice specializes in assembling and managing dedicated teams of highly skilled technical professionals to augment your in-house resources. With corporate headquarters in Allentown, PA and software development centers in India, SoftNice offers you the convenience and security of working with a reliable U.S. corporation plus all the benefits of a highly affordable offshore outsource development team. Our team of senior software professionals is comprised of skilled, experienced problem solvers, not just coders and technicians. Our managers and software architects have the business acumen to understand your demanding working standards and produce the high quality software products you need. Our teams are comprised of the highest caliber of software designers and developers versed in development standards, best practice methodologies and all of the most popular as well as cutting edge development platforms and technologies.  

Our goal is to become your long term, trusted outsource software development partner. Our teams become an extension of your own inhouse IT team, dedicated to meeting your software development needs today, and growing with you as your needs evolve. Between our inhouse resources and immediate access to highly skilled developers, we are able to create teams according to your requirements, with exactly the skills and experience you need. Whether you need one top notch technical specialist or a team with diverse skill sets to extend your own internal resources, SoftNice can meet your needs quickly and affordably.  

**Our Vision**  
We pride ourselves in being a business that puts a premium on the welfare of our people as part of our corporate strategy and goals. Our aim is to be an organization-of-choice, not just for our client’s, but also as the market’s preferred employer. Our consultants are not only best at the technologies they perform, but they are also good at understanding your business and help you run them better.  

**Our Goal**
* Improve efficiency with strategic IT solutions and support from SoftNice.
* Provide technically skilled professionals in current and emerging technologies.
* Provide satisfying and challenging work environment to employees.

**U. S. Navy**
Website: www.navyintern.cms.navy.mil/

**Positions:**

**Overview:**

**UC Synergetic, Inc.**
Website: www.UCSInc.com

**Positions:** Full-time

**About Us:** UC Synergetic is a national engineering, technical services, and consulting company formed with the merger of Synergetic Design, Inc. and Utility Consultants, Inc. The move created a company uniquely positioned to meet the demands of both the energy delivery and communications sectors in the emerging Smart Grid, and provided our diverse customer base with integrated and innovative solutions. UC Synergetic subsequently acquired PowerComm Engineering, Inc., and further solidified our expertise in these two critical infrastructure industries.

Our capabilities include power engineering and design (both transmission and distribution); gas distribution design; energy delivery consulting; wireless, cable, and cellular network infrastructure engineering; as well as a number of field services which includes a significant storm response component.

**Built for the Future**

Our corporate philosophy is simple: we partner with our clients to help ensure their success. Integrity and a passionate commitment to quality is at our core, and we've assembled a proven team of engineers, designers, project managers and technicians with experience in all areas of power, energy, and communications engineering to help us exceed client expectations.

Combined, the company has more than 70 years of successful experience serving the needs of two essential industries, and our senior management team has more than 200 years of collective experience in engineering design and project management for utilities and communications companies across the nation. UC Synergetic's clients include major investor-owned utilities and telecommunications companies, municipal and public power organizations, electric cooperatives, colleges and universities, as well as other private companies.

Our company is well-positioned to support the evolving Smart Grid approach well into the 21st century. Based in Charlotte, NC, UC Synergetic has regional offices in Atlanta, Boston, Columbus, Dallas, Denver, Raleigh and Tampa in order to better serve our diverse customer base.

**Services:** Energy Delivery (Transmission Engineering, Substation Physical Design, Protection and Control, Distribution Engineering, Field Services, Consulting Services), Communications (Wireless Services, Telecommunication Services – Cellular Services & Wireline LEC Services, Storm Response.)

**University of Texas at San Antonio**

Bradleys’, Inc.
Website: http://www.bradleysmotors.com/
Annual Report: 
Overview: BRADLEYS’ MISSION:
TO EXCEED OUR CUSTOMERS’ EXPECTATIONS EVERY TIME
For over 80 years, industrial reliability and maintenance professionals have trusted their electric motors and generators to Bradleys for repair, rewinding, testing and reverse engineering. An ISO 9001:2008 registered firm, Bradleys is recognized throughout the United States as the leader in large electric motor repair and load testing, employing the latest methods and technology to deliver exceptional service to its customers. The company adheres to all EASA and IEEE standards and enjoys one of the best safety ratings in the industry.

Bradleys employs a “good neighbor” environmental policy and voluntarily closed its industrial effluent drain to the small municipality of Gregory, TX. It implemented a waste minimization program designed to separate, reduce and recycle all industrial waters through its passive filtration water reclamation system. This uniquely designed system enables Bradleys to reuse this precious water resource for months before proper disposal is necessary. The company recycles all solvents and utilizes non-toxic, environmentally-safe chemicals whenever possible.

The company is especially proud of its track record of creating opportunities for women, minorities and military veterans.

OUR HISTORY
The Great Depression held few good tidings for citizens of Corpus Christi, TX, much like countless thousands across the nation.

In those shaky and economically troubled times, an optimistic family made a bold move to open an enterprise on September 30, 1930. Founded as the Fixit Shop, it would prosper and emerge as one of South Texas’ major employers and industries, known today as Bradleys, Inc., and grew larger over the decades, moving its operations several times as demand for the company’s services grew.

Today, Bradleys resides on 9.3 acres in Gregory, Texas with state of the art, "green built" energy efficient and energy-generating facilities. The campus includes 110,000 square feet of electric motor repair, rewinding, load, electrical and mechanical testing and climate-controlled motor storage buildings, as well as full service CNC shop, and a 100 ton bridge crane, with capability of lifting up to 200,000 lbs. The company employs over 100 highly trained, expert motor repair professionals.
Jim Williams Jr., President, nephew of the original founding family, acquired the company in 1988, and is a sought-after consultant and expert witness. He is a member of the Technical and Management Boards of EASA. Membership is limited to 8 members from motor shops across the country, and members are selected based on merit, experience and industry leadership. His son, Jimmie Williams III, Operations Manager, is working by his side.

A new generation is carrying on the traditions that were designed and implemented by the Bradley family: pride and commitment to quality service and products for their customers; a safe, healthy and pleasant work environment for their employees; and a commitment to improving the quality of life in the Coastal Bend region through activism, volunteerism, and support of many non-profit organizations.

Buckeye Cleaning Center – Corpus Christi
Website: www.BuckeyeInternational.com
Overview: Buckeye Cleaning Center is a manufacturer and distributor of cleaning and janitorial supplies. Advertising/Marketing, Arts, Business Services, Chemicals, Communications/Media, International Affairs & Development, Manufacturing, other.

About Us: Buckeye International, Inc. is the innovative leader in the cleaning/maintenance products industry with a heritage marked by a history of quality products, profitable operations, and consistent financial strength. Our company was founded in 1844 in Dayton, Ohio as the J.P. Davies Company, producer of oils for oil-burning lamp and lubrication uses. The discovery of petroleum in 1888 led to a shift in production to bar soap manufacturing. J.P. Davies Company became the first company to market chip soap in a box on a commercial basis, beginning in 1892. In 1905, we became the first company to package chip soap for household use. The J.P. Davies Company was incorporated under Ohio law as the Davies-Young Soap Company in 1914. The nut of the buckeye tree, a symbol of luck to many Ohioans, inspired the Buckeye brand name for our soap and other cleaning products. The Buckeye brand name was registered in 1922. In 1972, Davies-Young Soap Company relocated its corporate headquarters, research facilities, and product operations to St. Louis, Missouri, and with our growth in international business, changed our name to Buckeye International, Inc., in 1990. Today, all of our products bear the Buckeye brand name and are used throughout the world in hospitals, long-term care facilities, schools, and industrial and retail facilities. Beginning in 1975, Buckeye became one of the first in its industry to emphasize worker and environmental safety through better products and packaging. Instead of following the rest of the industry, Buckeye decided to step ahead and develop its own patented chemistry just as effective as those containing butyl, yet much safer to work with. Our patented Liquescent®technology was the way of the future for Buckeye. This water-based technology not only strengthens the cleaning power of Buckeye products, but it also removes hazardous chemical ingredients, such as butyl, ammonia, solvents, and alcohol bases.

Buckeye continues to be the innovative leader through its product proportioning systems including the patented Action Control System II and the Smart System. Buckeye was the first company in the maintenance cleaning products industry to introduce the "bag-in-a-box" concept. Our Action Pacs utilize this idea and contain 1/12 the non-biodegradable materials of a standard five-gallon pail. Packaging innovations continued with the Buckeye Smart Sac. This packaging contains 60% less plastic than rigid containers and is designed for use in the lockable, easy-to-use, and efficient Smart System™. Packaging is just another way Buckeye uses innovative ideas to make safer products that are more convenient than ever to use.

Buckeye doesn't stop all this innovation with products and packaging. Our company leads the way in providing superior customer service as well. From specialized training programs for end-users to timely deliveries and professional support, Buckeye customers know that they're getting the most innovative service and products in the industry.

Corpus Christi Police Department
Website: http://www.ccpolice.com/
Overview: Core Values
Honesty & Integrity, Community Service, Fairness, Work Ethic and Leadership

Vision
The Corpus Christi Police Department will utilize community involvement that links new, innovative crime fighting methods and technology to develop a community policing organization where officers and the public operate as one.

CST Brands
Website: www.cstbrands.com
Overview: "As a Texas-based company, we like to mind our manners. That's why we greet our guests with a smile, keep our stores bright and clean and always offer up a fantastic spread." – Kim Bowers, President and Chief Executive Officer

At CST Brands, Inc. (NYSE: CST), everything we do comes back to making people's lives a little easier. As the largest independent retailer of transportation fuels and convenience goods in North America, we reach thousands of customers every day who are in a constant state of coming and going.

Along the way, we’re proud to offer some of the tidiest and friendliest places to conveniently refuel, restock and refresh, including nearly 1,900 Corner Stores in the United States and DÉPANNEUR DU COIN in Canada.

Our signature Fresh Choices® packaged products focus on freshness and are perfect for on-the-go. Our baked-in-store selections include sweet whoopie pies, savory kolaches and breakfast tacos with homemade tortillas. They all pair nicely with our Flavors2Go® fountain drinks, UForce® energy and sport drinks, FC® bottled sodas and Cibolo Mountain® and Transit Café coffees.

Quick Facts:
CST employs nearly 12,000 Team Members.

CST has nearly 1,900 locations in the Southwestern United States and Eastern Canada.

CST's revenues in 2012 were $13.1 billion, making us the second-largest publicly traded fuel retailer in the country.

CST is traded on the New York Stock Exchange (NYSE) under the symbol CST.

Company History:
CST Brands, Inc. (CST) was created as an independent spinoff company from Valero on May 1, 2013 to grow our robust retail network and increase shareholder profitability. The spinoff helped to unlock our true value and gave investors a great new opportunity to invest in the retail industry. We earned a spot in the Fortune 220 at spinoff and continue to grow.

Fastenal
Website: www.Fastenal.com
Overview: Fastenal Company is a leading distributor in the Industrial and Construction Supplies Market.
About Us: Any overview of our company has to start with a look at our 2,600+ store locations and the 10,000+ people who operate them. After all, when our customers think of Fastenal, they don't think of some remote corporation; they think of the local "Blue Team" that serves them on a daily basis. Backed by our global sourcing, quality, and logistics operations, each store is a local, one-stop source for a spectrum of OEM, MRO and Construction supplies. That includes a broad core inventory of commonly used products, as well as items that are custom-stocked to meet individual customers' needs. (Because it's on our local shelves, it doesn't have to be on theirs.)
Working within our decentralized environment, store personnel take a flexible approach to support local customers — sourcing products, making emergency deliveries, managing a lean flow of inventory to points of use, and leveraging our services, solutions and specialists to drive continual business improvements. Local product and local people: these are the cornerstones of our value proposition. So when you hear us talk about our thousands of stores, remember that we're not talking about how big we are; we’re talking about how local we are. And that's what Fastenal is all about — using our corporate resources to be the best local supplier in every market we serve.

**Firestone**

Website: http://www.firestonecompleteautocare.com/

**Annual Report:**

**Overview:** Firestone Complete Auto Care is different. We are positively involved in your world — offering not only the best customer service, quality products and the right solutions for your auto care needs, but also initiatives that improve your community and the environment.

What We Offer

No one looks forward to the time when their vehicle needs attention. At Firestone Complete Auto Care, we understand. We've been providing the right solutions since 1926, one customer at a time. Our teams of professionals understand cars and they understand the people who drive them. We use advanced technology and offer quality products from brands you trust — all of which add up to a total car care experience.

Firestone Complete Auto Care Is Convenient

We understand that you're busy. We know there never seems to be a good time to have work done on your vehicle.

At Firestone Complete Auto Care, we go out of our way to make sure your experience exceeds your expectations. From check-in to check-out, our auto care advisors and technicians work to get your vehicle ready to go as quickly as possible.

And with more than 1,600 Firestone Complete Auto Care store locations nationwide, finding one that’s convenient to your home or work is easy, too. Most of our locations are open seven days a week, and open late to accommodate your busy schedule.

**Life Chiropractic College West**

Website: http://lifewest.edu/

**Overview:** INSTITUTIONAL MISSION

To advance chiropractic through the Doctor of Chiropractic Program, postgraduate education, philosophical inquiry, research and scholarly activity in a climate of love and service.

INSTITUTIONAL STRATEGIC GOALS

Success of the Institutional and Programmatic Missions of Life Chiropractic College West require specific and intentional efforts to achieve. Goals aimed at achievement of the vision and mission of the college include:

Increasing Enrollment
Increasing Student and Graduate Success
Creating a Financially Sustainable future
Increasing Institutional Effectiveness
Focus Research on the Nervous System, Pediatric Chiropractic Care and Quality of Life Issues
Create a “Wow” Student Experience
Have a Campus Experience Congruent with the Chiropractic Lifestyle
Expand Alumni and Professional Relationships
OUR VISION

The vision of Life Chiropractic College West is to create a brighter future for humanity.

DOCTOR OF CHIROPRACTIC PROGRAM MISSION

Life Chiropractic College West offers a doctor of chiropractic program through a leading edge curriculum and clinical training experience providing graduate chiropractors with the knowledge, skills, philosophies, attitudes, and competencies to serve the health care needs of the public in the 21st century.

The program focuses on the relationship between the structure and function of the human body as coordinated by the nervous system, and the effect of the vertebral subluxation.

The program instills in the chiropractic graduate an appreciation for the innate potential of the human body to heal and adapt to its environment, and the role of the nervous system in the restoration, preservation and enhancement of human health and performance.

The Doctor of Chiropractic program prepares graduates for personal and professional fulfillment in a climate of Loving, serving and giving.

Susser Holdings / Stripes
Website: http://www.susser.com/
Overview: Based in Corpus Christi, Texas, Susser Holdings Corporation is a third-generation family led business that owns and operates approximately 575 Stripes® convenience stores across Texas, New Mexico and Oklahoma. Approximately 370 of our Stripes locations offer fresh made-to-order authentic Mexican food, primarily under our proprietary Laredo Taco Company® brand.

Susser Holdings also is majority owner and owns the general partner of Susser Petroleum Partners LP, a Houston-based master limited partnership formed in September 2012 that is one of the largest independent wholesale fuel distributors in Texas. Susser Petroleum Partners distributes more than 1.5 billion gallons of motor fuel annually from major oil companies and independent refiners to our Stripes® convenience stores, over 90 consignment sites at independently operated convenience stores, more than 565 independently operated dealer locations and approximately 1,800 commercial customers in Texas, New Mexico, Oklahoma and Louisiana.

We work to continue growing our businesses every year by increasing sales in our existing locations, adding new stores and taking advantage of strategic, thoughtful acquisitions when they fit our retail/ wholesale business model. We strive to create an outstanding work environment for our employees, delight every customer, build solid long-term supplier relationships and create long-term value for our shareholders.

TEACH Project
Website: www.TAMUK.edu/teach
Overview: Our online alternative certification program is designed to train those who have earned any bachelor's degree in a content area outside the field of education to become teachers. We strive to be the most effective and accessible path for teacher certification in south Texas!

EFFECTIVE
The TEACH Project will prepare you for work in diverse school settings. Whether you want to work in rural or high-poverty areas, we train you to effectively meet the educational needs of today's students.

FLEXIBLE
All of our classes are offered online in a streamlined program so you can complete your coursework anywhere, anytime and finish a 30 hour program in as short as 14 months. The program includes a field experience component and mandatory attendance to monthly professional development workshops.
SUPPORTIVE
By the start of the academic year, you can begin your first year as a teacher in a school in south Texas and receive a first year teacher's salary. In the spring, you will continue your teaching career with ongoing scheduled university supervision and mentor support. We'll keep you informed of new job openings so you can secure employment while you complete your training. Students who work in some of our "high needs" school districts may be eligible to earn a $3,000 stipend and iPad.

Texas Agrilife Extension Service
Website: SouthTexas.TAMU.edu
Overview: Improving Lives, Improving Texas, Solving Problems, Leading Change, Developing Communities, Engaging Volunteers and Impacting Youth.
About Us: Real Learning for Real Life. District 12 is the southernmost district in Texas for AgriLife Extension. It includes 20 counties and 19 county offices, supported by a District headquarters at the Texas AgriLife Research & Extension Center at Weslaco. Agrilife Extension established a headquarters in Weslaco in 1948, using district-based specialists to support applied research, demonstration projects, and educational programs to support and benefit the agricultural industry of South Texas through county-based programs. Today, it continues it's mission to support agriculture, families, and youth of South Texas with it's technical expertise, training, and educational programs. Our Mission. To improve the lives of people, businesses, and communities across Texas and beyond through high quality, relevant education.

Texas Department – Family and Protective Services
Website: http://www.dfps.state.tx.us/
Overview: The Texas Department of Family and Protective Services (DFPS) protects children and adults who are elderly or have disabilities and regulates child care.

Adult Protective Services
Child Protective Services
Child Care Licensing
Prevention and Early Intervention
Overview
The Texas Department of Family and Protective Services (DFPS) works with communities to protect children, the elderly, and people with disabilities from abuse, neglect, and exploitation. It also works to protect the health and safety of children in daycare, as well as foster care and other types of 24-hour care. We do this through investigations, services and referrals, regulation, and prevention programs. DFPS has four major programs that do this important work.

Adult Protective Services
Protects the elderly and people with disabilities from abuse, neglect, and exploitation through investigations and services.
Child Protective Services
Protects children from abuse and neglect through investigations, services, foster care, and adoption.
Child Care Licensing
Regulates daycare, foster care, adoption agencies, residential treatment centers, before- and after-school programs, and maternity homes.
Prevention and Early Intervention
Manages community-based programs that prevent juvenile delinquency and child abuse and neglect. Please call the Texas Abuse Hotline if you suspect that a child or adult who is elderly or has disabilities is being abused, neglected, or exploited.

DFPS was created by the 78th Legislature (House Bill 2292) and was previously called the Texas Department of Protective and Regulatory Services.
Texas Department of Public Safety
Website: www.JoinDPS.com
Overview: Over 500 vacancies for trooper trainee positions all over the state.
About Us: The Department of Public Safety will continue to accept applications for Trooper Trainee year round. The first step toward becoming a Texas State Trooper is submitting your application online. If you meet the minimum requirements you will be notified by email or telephone on the next available test date. The physical readiness test and written tests must be completed within 30 days of submission of your on-line application, unless the Tester or Recruiter approve other arrangement. The Department will select the most competitive candidates to continue in the application process. Be sure to review the Department's list of disqualifiers prior to submitting your application online and documents. If you are unsure of a disqualifier contact the Recruiter or Tester in your area.

- Guaranteed Duty Station Assignments will occur during the first week of the academy. The duty station assignment will be guaranteed upon graduation. The available locations are based on the needs of the Department.
- Must meet all requirements, including being a U.S. Citizen and must be at least 20 years of age (There is no maximum age limit to apply to become a Texas State Trooper)
- Must have sixty (60) college earned hours
- Up to sixty (60) college earned hours may be waived with 24 months of military or equivalent police experience
- Federal law enforcement applicants with 24 months of full-time service with agencies listed in §2.122 Texas Code of Criminal Procedure

Texas A&M Health Science Center – School of Rural Public Health
Website: srph.tamhsc.edu
Overview: The mission of the School of Rural Public Health is to improve the health of communities, with emphasis on rural and underserved populations, through education, research, service, outreach and creative partnerships. At the school, our professors care about impacting the community with their research as well as their students. Professors have research projects ranging from emergency preparedness to community health development. Yet, each of them share a passion for learning. Students use faculty as advisors, and each student participates in a practicum during their stay. Students have conducted epidemiologic studies, assisted in programs/centers of faculty, and many others have served as interns in Texas and abroad.
What is Public Health?
Public health is the science and art of preventing disease, prolonging life and promoting health through the organized efforts and informed choices of society, organizations, public and private, communities and individuals. More importantly, public health is YOUR health. Most people don't understand what public health is or how it impacts their daily lives. Those who work in public health have careers ranging from ergonomists to epidemiologists. Whether your interest be social work, research, management, or field work--public health has a niche for you.

The University of Texas – Pan American
Website: www.utpa.edu/gradschool

USDA – Farm Service Agency
Website: http://www.fsa.usda.gov/
Overview: Mission
Farm Service Agency is equitably serving all farmers, ranchers, and agricultural partners through the delivery of effective, efficient agricultural programs for all Americans.

Agency/Internal Vision
A customer-driven agency with a diverse and multi-talented work force, dedicated to achieving an economically and environmentally sound future for American Agriculture.

Societal/External Vision
A market-oriented, economically and environmentally sound American agriculture delivering an abundant, safe, and affordable food and fiber supply while sustaining quality agricultural communities.

Values
The foundation of FSA's mission and vision rests upon the USDA's long-standing core values of
Strong Ethics;
Customer Service,
Team Work;
Inclusive Decision-Making; and
Fiscal Responsibility.

Vector Marketing
Website: http://vectormarketing.com/
Positions: Internship
Overview: Who Are We?
We're the company that sells CUTCO® Cutlery. Our people are diverse and fun (85% of our sales force is college-aged) and they love representing our world-class kitchen cutlery.

True, many of the people we work with never once thought about kitchen knives before they met us. But, they catch on quickly.

What's Vector?
Vector Marketing is a single-level direct sales company that sells CUTCO®.

Early in CUTCO Corporation’s history, there were hundreds of small independent sellers of CUTCO®. In 1981, Vector Marketing was founded to be one of those independent sellers. From 1981 to 1984 Vector sold way more than all the other independent sellers.

In 1985, CUTCO Corporation (back then it was called Alcas Corporation) bought the company from its owners to replicate Vector’s success across the nation.

Now, Vector Marketing is the exclusive seller of CUTCO® Cutlery.

Our home office is in Olean, New York, and we have over 250 year-round, independently run locations throughout the United States, Canada, and Puerto Rico. Plus, we have over 300 more temporary locations that open each year for our peak summer season.

What’s CUTCO?
We’re glad you asked!

CUTCO® Cutlery is a high-quality line of kitchen cutlery, kitchen accessories, and sporting knives. CUTCO® has been manufactured in Olean, New York since 1949.

(That’s right: we are proud to be the only high-quality cutlery line still made right here in the USA.)

Over 15 million homes in North America have CUTCO® in their kitchen. Why? Because the knives are awesome… and guaranteed FOREVER. Our customers absolutely love them.

We sell over $200 million dollars of CUTCO® every single year.

What We Believe
We believe that in order to succeed as a company, we first have to help individual people succeed.
We believe that treating someone on our team as an individual is better than applying a cookie cutter management style to someone's personality.

Our goal is to provide an exceptional work environment so our people can give our customers great customer service.

We're Proud Because…
We're one of the largest recruiters of college students in North America each year.

Our people develop some sweet skills while selling CUTCO®, and they build a resume that can take them anywhere.
Our people think it's pretty cool to give back.
Our people are diverse.
If you're willing to work hard, have an open mind and a great attitude, we might be a good fit for you!

How We Do Business
We belong to the Direct Selling Association, which is the national trade association for companies who manufacture and distribute goods and services sold directly to consumers. All DSA members follow a strict Code of Ethics.

Here's what that means for you:

We think that professionalism, integrity, and ethical business practices matter.

Frankly, we think that’s the only way to do business.

**Whataburger Restaurants, LLC**
**Website:** www.whataburger.com
**Overview:** Careers at Whataburger
Whataburger® began in 1950 when Harmon Dobson opened a tiny burger stand in Corpus Christi, Texas. From day one, he believed that valuing his employees would ensure the success of the company. He was right! That two-man burger stand has grown to over 700 Whataburger locations across 10 states. We are still family-owned and operated and everyone who works at Whataburger is considered a Family Member. We hire people we believe in, we train them for success and we help them build careers that last.

Find your place. For jobs within our restaurants, including everything from entry-level Team Member positions to General Manager, visit Restaurant Opportunities. Or, if you are interested in a corporate position, you should search our Home Office and Field Opportunities.

**Workforce Solutions**
**Website:** www.workforcesolutionscb.org
**Overview:** Workforce Solutions of the Coastal Bend provides comprehensive human resource services for businesses and residents of the 12-county region. Our network of partners and providers offers a wide range of no-cost and low-cost opportunities for employers and job seekers. We offer recruitment services, job search assistance, training, child care support, educational initiatives, and much more. We have developed innovative opportunities that bring together economic development, education and employment. This results in a high-quality workforce system that ensures economic viability for the Coastal Bend community.

Business Service/Employer Opportunities
With today’s economy, businesses are working harder than ever just to stay afloat. Daily demands shift the focus away from the big picture strategy. Workforce Solutions can help. We offer business services to support both large and small employers. Our Workforce Solutions team can recruit, screen and match applicants to fill jobs quickly. And, we can customize training programs to support your success. The right people doing
the right things keep businesses growing. Put us to work for you, so you can focus on what’s important – running your business!

Job Seeker
It’s about learning the skills to get the job to build the dream…
Workforce Solutions provides job search assistance for everyone – from the highly-skilled to the first time job seeker. There are many resources available for the job seeker beginning with 10 Career Centers located throughout the 12-county Coastal Bend region. Each Career Center provides free computer, fax and telephone usage to customers for job searches. Stop on by - we’re here to help you every step of the way!
