

The Rave Guardian Campus Safety App transforms mobile phones on your campus into personal safety devices.

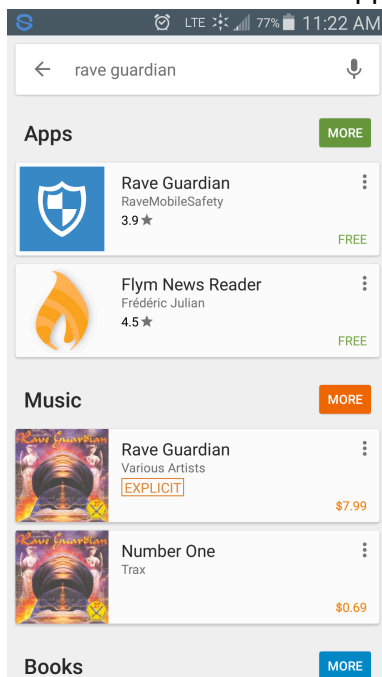

Guardian enhances safety on campus through a *virtual safety network of friends, family, and campus safety*.

1. Panic Button: Direct immediate connection to campus safety with GPS location and personal profile information.
2. Tip Texting: Enables anonymous crime tip reporting and 2-way communication via SMS or mobile app.
3. Personal Guardians: Students can identify friends, roommates, and family as 'Guardians' along with Campus Safety. Students can set a Rave Guardian Timer. During a Timer session Guardians and Campus Safety can check status of student. If the Rave Guardian timer is not deactivated before it expires, campus safety is automatically provided with the user's Rave Guardian profile to proactively identify and check-in on the individual.

Installing the Guardian App

Installing and setting up your profile in the Guardian App is a snap.

- Search for the "Rave Guardian" in the Apple App Store for iPhones or Google Play Store for Android phones.
 - [Click here to download the Android app from the Google Play Store](#)
 - [Click here to download the iOS app from the Apple App Store](#)
- Download and install the app.

- Open the app and input your phone number and university email address (this will be your User ID).

- Enter the requested identity and security information.

- Confirm your account via text and your school affiliation via email.

You're done with the vital part! Now you can upload your photo and fill out your profile as fully as you choose. Remember that the more information you add; the more information the University Police will have if you ever need to use the emergency features of the app.

Below is a link to a few video tutorials that will help setup and use Javguard.
