Dr. Challoo asked senators to pass the amendment to their departments as it is not in the faculty handbook.
- Dr. Challoo stated there was some confusion regarding the standing committee. He stated that he had worked with the President, Provost, Dr. Gardiner, and the Faculty Senate Executive Committee years back as some committees duplicated and overlapped. The committee will consist of faculty and administrators and as part of their charge, the committee will review the past history and our growth in enrollment and make recommendations on future actions to sustain the momentum created and how to provide resources and support to faculty due to the increase in enrollment and more expectations from faculty on scholarly
activities. A draft of charge is being developed and once approved the committee will be appointed.

It was stated that courses of the same size and type would be selected from all colleges and all types would be eligible. Labs were avoided. 89 courses were selected from lecturers and tenured professors. Dean and chairs were notified and the committee will approach faculty for permission. This is voluntary so a reduced list will be developed. The committee is working with OIR on a template.
    o  Dr. Kathleen Rees asked regarding faculty who are untenured going up for tenure would not be harmed by this. It was stated that the new test cannot be used negatively or positively for evaluations which was approved by Karen Royal.
