The ESF camp runs from Monday, July 15, 2013, to Friday, July 19, 2013.

Participants will work on a week-long project in the areas of wind farm design, air pollution remediation, biofuels, construction materials, new product design, or robotics.

To qualify, students must be at least 14 by the time camp begins and must have previously participated in the YESTexas or GEMS summer camp.
