EDUCATION

2010 Ph.D., Medical Microbiology, Chulalongkorn University, Bangkok, Thailand
2001 B.S., Medical Technology, Chulalongkorn University, Bangkok, Thailand

EMPLOYMENT

2018-Present Assistant Professor, National Natural Toxins Research Center (NNTRC),
Department of Chemistry, Texas A&M University-Kingsville (TAMUK)
2015-2018 Research Assistant Professor, NNTRC, TAMUK
2011-2015 Research Scientist, NNTRC, TAMUK
2010-2011 Postdoctoral Fellow, Snake bite and Venom Research Unit, Faculty of Medicine,
Chulalongkorn University, Bangkok, Thailand
2000-2009 Ph.D. Student Researcher, Snake bite and Venom Research Unit, Faculty of
Medicine, Chulalongkorn University, Thailand

HONORS AND PROFESSIONAL MEMBERSHIPS

2018-present Member, American Association for Cancer Research (AACR)
2018-present Member, American Society for Microbiology (ASM)
2012-present Member, International Society on Toxinology (IST)
2013 Member, Society of Toxicology (SOT)
2010 First class honor for Ph.D. poster presentation at the eleventh Royal Golden
Jubilee-Ph.D. Congress, Pattaya, Thailand.
2007-2008 Recipient of Chulalongkorn University 90th Anniversary Fund, Thailand
2000-2005 Recipient of Royal Golden Jubilee Ph.D. Scholarship, Bangkok, Thailand

CERTIFICATIONS

"The acute effects of snake venom CRiSP toxins on blood and lymphatic endothelial cell permeability: new insights into the pathophysiology of snakebite"

This is an NIH Academic Research Enhancement Award (AREA) Program (R15) to support the research projects to expose undergraduate and graduate students to research, and to strengthen the research environment of the National Natural Toxins Research Center (NNTRC) at Texas A&M University – Kingsville. Funding from this award supports studies directed toward the characterization of the effects of a specific family of snake venom toxins, the svCRiSPs (snake venom Cysteine-Rich Secretory Proteins), on the function of blood and lymphatic endothelial cells that will provide new insights into the pathophysiology of snakebite.

"Viper Resource Center at Texas A&M University - Kingsville (TAMUK)"

This is an NIH Animal and Biological Material Resource Center Grant (P40) to support the operation of the National Natural Toxin Research Center (NNTRC) at Texas A&M University – Kingsville. Funding from this award supports the operation of the Perez Serpentarium, the collection and distribution of snake venoms and snake venom-derived reagents to academic and commercial researchers world-wide. The award also supports studies directed toward the characterization of the biological activity of certain snake venom toxins.
