

Pharm.D./MBA Double Degree

The Texas A&M Health Science Center Irma Lerma Rangel School of Pharmacy
& The Texas A&M University-Kingsville College of Business Administration

Taught Exclusively Online

Admission Requirements

- Satisfactory completion of pre-MBA Foundation courses
- Completion of first Pharmacy program year
- Letter of recommendation from the Dean of the School of Pharmacy

How it works

The double degree Pharm.D./MBA program involves the fundamental elements of each program. All students must meet the requirements for admission to the two degree programs. Once students complete the first professional year in the Pharm.D. curriculum, students will be able to add MBA courses to their academic load. A student can enroll in two MBA courses each fall and spring semesters (one course per each eight-week block) and two MBA courses during the summer semester. Students are able to earn an MBA degree in less time than if they were to pursue the two degrees independently.

Funding Opportunities

Scholarships are available. Apply at <https://www.tamuk.edu/business/graduate/MBAScholarships.html>

WILL A DOCTORAL DEGREE IN PHARMACY BE ENOUGH?

Texas A&M Health Science Center Rangel School of Pharmacy and The Texas A&M-Kingsville College of Business Administration are partnered to provide students of pharmacy the opportunity to earn two degrees, the Doctor of Pharmacy and the Master of Business Administration, in parallel. Thus, when students graduate, they are prepared not only for the clinical aspect of Pharmacy, but will also have the business background and skills necessary to enter management positions within pharmacy.
