What looks like an obvious decline in our graduation rate, is best understood in light of the fact our program has grown 400% in the last 18 months. The students who graduated for this report's count, were actually part of the smaller enrollment cohort number. Therefore, the graduation rate is skewed as a result of the exponential growth in enrollment. We anticipate this percentage to grow once the total number of graduates aligns with the new enrollment numbers.

REMINDER: Programs Evaluation Results (CACREP 2024 Standard 2.F.3) and Student Outcomes (CACREP 2024 Standard 2.E.2) must be made publicly available on your program's website. The information to be posted includes the following four data points regarding each of your accredited specialty areas: (a) number of graduates in the past year, (b) degree completion rate, (c) licensure or certification examination pass rate, and (d) combined employment and doctoral admissions rate of students/graduates.

Once your updated 2023-2024 data has been posted, send the website URL to cacrep@cacrep.org.
