Department of Environmental Engineering

South Texas Environmental Engineering
& Science Academy (STEEA) Program

RESEARCH EXPERIENCE FOR MIDDLE/HIGH SCHOOL & COMMUNITY COLLEGE STUDENTS

This summer 2023, spend 4-6 hours per day, 3-5 days a week working on fun environmental research projects, guided by our engineering faculty and students. Dates and times are flexible!

Research topics include climate change, water quality, air quality and pollution control, desalination, geospatial analysis, data analytics and more.

Certificates of participation are provided.
