SECTION 1: THE UNIVERSITY

#### **UNIVERSITY HISTORY**

Texas A&M University-Kingsville grew out of the teacher college or "normal school" movement that swept Texas and the nation in the early 1900s. Chartered in 1917 but not opened until July 8, 1925 because of America's entry into World War I, the University is the oldest continuously operating public institution of higher learning in South Texas. In its first semester, the University, known then as the South Texas State Teachers College, enrolled 114 regular college students and offered a limited number of degrees, specifically a Bachelors of Arts and Bachelors of Science of Education.

#### THE CHANGING NAME

The University has experienced several name changes since it first opened in 1925. Shortly after beginning life as South Texas State Teachers College, the University's role was expanded to embrace a wider array of programs. As its mission has expanded, its name has changed to reflect its wider scope. Its first name change, to Texas College of Arts and Industries, came in 1929. In 1967, the name changed to Texas A&I University. In 1989, the University became a member of the Texas A&M University System and in 1993 changed its name to Texas A&M University-Kingsville to reflect that membership.

#### THE UNIVERSITY TODAY

Today, Texas A&M University-Kingsville remains South Texas' greatest university, offering more academic programs and degrees, providing better learning and living facilities, conducting more research, awarding more scholarships, and producing more successful graduates than any other college or university in the region. The University seeks to provide quality undergraduate and graduate programs for students of all ages through a judicious blend of liberal and career education programs. The emphasis is on providing an intellectually challenging education reflecting high standards of academic

performance. The University is also dedicated to serving an ethnically and culturally diverse population and is committed to its mission of teaching, research, and service in South Texas for the advancement of knowledge and of regional development.

#### HISTORICAL FACTS OF INTEREST

- May 1927 the first commencement exercise was held, with eight degrees granted
- 1929 the first degree awarded to a Mexican American was awarded to Adelina Pena De Garcia
- Summer 1936 graduate level courses were offered for the first time
- 1959 the first degree awarded to an African American was awarded to Emma Rebecca Summers, a M.A. in Education
- 1975 the University established the first doctoral program in Bilingual Education in the nation
- Fall 2014 University enrollment reaches an all-time high of 8,687 students

#### **DEFINITIONS**

#### **ENROLLMENT (HEADCOUNT)**

The number of students enrolled in courses offered for degree certificate or certificate credit, including students who are not admitted to a degree program. When student headcount is reported by the academic college or department, the headcount is attributed to the department that administers the student's primary major.

#### ACADEMIC LEVEL/STUDENT LEVEL

Freshmen: A student who has fewer the 30 earned credit hours.

Sophomore: A student who has 30-59 earned credit hours

Junior: A student who has 60-89 earned credit hours.

Senior: A student who has at least 90 earned credit hours.

Master's: A student enrolled in an approved master's program.

Doctoral: A student enrolled in an approve doctoral program.

Post Bachelor: A student who has a bachelor's degree and pursuing additional undergraduate coursework.

#### **FULL-TIME STUDENT**

An undergraduate student enrolled for 12 or more credit hours in a term or a graduate enrolled for 9 or more credit hours in a term.

#### PART-TIME STUDENT

An undergraduate student enrolled for fewer than 12 credit hours in a term or a graduate student enrolled for fewer than 9 credit hours in a term.

#### FTE (FULL-TIME EQUIVALENCY) STATUS

A statistic derived from the semester credit hour (SCH). The Legistlative Budget Board (LBB) and the Texas Higher Education Coordinating Board's (THECB) Higher Education Accountability System definitions calculate the number of FTE students by dividing the total number of undergraduate SCH by 15, master's SCH by 12, and doctoral SCH by 9.

This definition should be distinguished from the definition of a full-time student

#### ETHNIC CATEGORIES OR ETHNIC ORIGIN

A code whereby student enrollment numbers are reported in the appropriate race/ethnic category. The ethnic categories used in the *Fact Book* are derived THECB definition of "enrollment disaggregated by ethnicity" as found in the online institutional resumes for Texas public universities. In order to make longitudinal comparisons, "Hispanic" students, except international ones, are counted as Hispanic. Students who are "Multi-racial" and claim African American as one ethnic category are included with the African American students. "Asian" includes Asian and Pacific Islanders. International Students are shown as a separate category.

#### STEM

An acronym referring to the academic disciplines of science, technology, engineering, and mathematics; particularly used when addressing education policy and curriculum choices used to improve competitiveness in science and technology development and/or workforce development. STEM data in the *Fact Book* corresponds to the definition of STEM fields in the THECB's *Closing the Gaps* and includes students in the following CIP codes: 11, 14, 15, 27, 40, and 30.01.

### **DEFINITIONS**

### FTE: FULL TIME EQUIVALENCY

As reported to the THECB in the Coordinating Board Manual (CBM) 008 report, Faculty FTE is the percent of time assigned to each faculty appointment. To compute the total FTE amount, sum the percent time of all appointments (e.g., instructional appointments and administrative appointments in direct support of instruction) for each faculty member and divide by 100.

### FACULTY HEADCOUNT

Faculty Numbers are calculated using Fall CBM 008 data and only include faculty that are involved in instruction.

SECTION 4: UNIVERSITY FACILITIES

### **FACILITIES OVERVIEW**

Texas A&M-Kingsville holds nearly 1,569 acres of land in four counties of South Texas, including a number of non-contiguous sites from near Bishop, Texas to just north of Brownsville, TX. The University's man campus is located in Kingsville, TX. Additional off-campus sites support the academic, research, and public service objectives of the University.

Academic and research facilities represent a major portion of the University's permanent improvements, providing an extensive infrastructure of support for the operational needs of a comprehensive, modern university. Of the University's approximate 2.3 million total square footage of floor space, 794,450 is designated as academic space. The balance is designated Auxiliary (AUX) which includes residence halls, recreational sports, athletics, and student activities. Academic space square footage includes 309,522 for teaching (including 88 classrooms), 121,689 for library, 75,610 for research, 218,749 for offices, and 68,880 for academic support (source: THECB Academic Space Projection Model - Fall 2014).

#### MAIN CAMPUS

Located in the town of Kingsville, TX—the seat of Kleberg County—Texas A&M-Kingsville's main campus consists of 257 acres of land, 75 major buildings, and numerous streets, sidewalks, and parking lots. Main campus buildings account for over 2.1 million of the University's total square footage and approximately 1.4 million square feet of education and general (E&G) space.

#### RESIDENTIAL FACILITIES

Texas A&M-Kingsville's main campus includes six on-campus residence halls with approximately 2278 beds, providing accommodations for approximately 26% of the student population. Also located within these halls are nine Living Learning Communities for students enrolled in selected programs.

#### DINING SERVICE FACILITIES

Texas A&M-Kingsville operates numerous dining facilities, managed by ARAMARK. The primary dining facilities are located within the Memorial Student Union Building, Turner-Bishop Dining Hall, and the Javelina Dining Hall. ARAMARK also manages several convenience store/deli services at various locations throughout campus.

#### RECREATION FACILITIES

Texas A&M-Kingsville's athletic and recreation facilities offer recreational opportunities and health benefits for all students, faculty, and staff. The Memorial Student Union Building provides a TV room, game rooms, and a food court. Steinke Physical Education Complex provides a pool, basketball court, racquetball and tennis facilities, a bowling alley, and exercise areas. Javelina Stadium has an outdoor track, intramural fields for soccer and golf, and football facilities. The Student Recreation Building provides access to fitness equipment along with a weight room and outdoor basketball courts. Additionally, the University maintains tennis and volleyball courts, an archery range, and intramural fields for various organized and open recreational activities.

#### ADDITIONAL ON-CAMPUS FACILITIES

Jones Auditorium. The auditorium is a 1,200 seat concert hall serving both the University and its surrounding community.

Cisneros Center for Young Children. Tasked with meeting the growing needs of faculty, staff, and students for childcare services, the Center for Young Children also provides educational opportunities for students in many academic disciplines, including early childhood education, speech and

communication, psychology, and kinesiology. Headed by a director and staffed with five full-time teachers, the center admits approximately 35 children, from three months to five years in age.

Caesar Kleberg Wildlife Center. Located in a natural wildlife setting and surrounded by indigenous vegetation, wildlife, and hiking trails, the Wildlife Center provides the University and surrounding community with informal and formal meeting spaces.

John E. Conner Museum. Relocated to Texas A&M-Kingsville's historic Loftin Hall in 1973, the Connor Museum houses and cares for collections, maintains permanent exhibits, and provides educational programs and special events for children and adults of the university and surrounding communities.

J. H. Clement Rehabilitation Center. In partnership with Christus Spohn Physical Therapy and Rehabilitation, Texas A&M-Kingsville's Rehabilitation Center provides prevention injury training, injury treatment for the university athletics program, and support training for athletics programs. Christus Spohn rents space in the facility for use with private patients.

Karr-Veterans Memorial Hall. As Texas A&M-Kingsville's Reserve Officers Training Corp (ROTC) facility, Memorial Hall houses an armory and short firing range, as well as classrooms and offices for faculty and support staff.

Serpentarium. Part of the National Natural Toxins Research Center (NNTRC), the Serpentarium is a state-of-the-art animal research facility designed to provide adequate care for venomous snakes while providing a safe environment for NNTRC staff. The facility is the foundation of a \$2.5 million drug discovery grant funded by the National Institutes of Health.

Vivarium. Owned and operated by the Texas A&M University Health Science Center, the Vivarium is a high tech, high security facility for humane research on small animals.

### **OFF CAMPUS**

In addition to main campus facilities, Texas A&M-Kingsville maintains several off-campus research and teaching facilities in support of the research and educational aspects of its mission.

#### RESEARCH FACILITIES

Citrus Center. Located on approximately 297 acres near the Mexican border, the Citrus Center in Weslaco, TX includes a newly completed \$6 million research facility. Designed to help develop a solution to unwanted infestations of foreign insects, this building also provides research facilities needed to develop citrus products of national and international fame, e.g., the Star Ruby and Ruby Red Grapefruit. In September 2013, the Citrus Center became the recipient of 50 acres and 6 buildings through a grant from the United States Department of Agriculture. This transfer of property was done to support the growing research

needs on the Lower Rio Grande Valley. The Citrus Center also hosts a limited number of classes, comprising less than 49% of a degree program.

Site 55. Located 25 miles southeast of the main campus on Baffin Bay, Site 55 was obtained from the federal government after previously serving as a naval air-training site. Currently an undeveloped biological research property, this facility includes 142 acres to support the teaching and research activities of the Biology Department, primarily in the fields of marine science and ecology.

South Pasture Research Facility. Located 10 miles south of the main campus, the South Pasture is a research and teaching facility situated on 2552 acres in Kleberg County. The property, once deeded to the University by the King Ranch, provides outdoor educational opportunities for local students and serves as a demonstration site

of semi-arid land management for land owners.

North Farm. Located in Nueces County, the North Farm is a 160-acre teaching facility that includes a number of buildings for farm equipment and a feed storage. In recent years, the North Farm has been leased out to crop farming, providing additional revenue streams to the University.

University Farm. Located one-half mile north of the main campus, the University Farm consists of 545 acres, of which approximately 76 acres are leased to the United States Department of Agriculture for the research activities of the Kika de la Garza Plant Material Center. The farm includes several buildings, greenhouses, a 35 acre Wildlife Research Park, a pathology laboratory, an aviary, and a wildlife interpretive center.

#### OTHER TEACHING FACILITIES

University Center. The University Center, also referred to as the Multi-Institution Teaching Center (MITC), is located in Harlingen, Texas. The MITC facility is a single building owned jointly by the Harlingen Economic Development Board and by Texas State Technical College in Harlingen. Texas A&M-Kingsville neither owns nor rents the facility. However, the University pays fees to deliver courses at the facility. The two-story, 38,500 square foot building includes solar panels on the roof, a digital library, a computer lab, a student lounge complex, a faculty office suite, two lecture halls, eleven classrooms, and three seminar rooms. Built in 2011 with expectations to house many more programs than are actually delivered there, the facility is well maintained and has the capacity for future expansion.
