

What-If Audits

What-If Audits allow you to process projective degree audits using your class history. If you are contemplating changing your major, are undeclared, or your degree plan information on the audit is not correct, you can use this format to see where you stand in your projective degree change. The What-If Feature is found on the Worksheets page.

The screenshot shows a web interface for 'What-If Analysis' under the 'Academic' tab. The form includes a 'What-If Analysis' title with an expand/collapse arrow. Below the title is a checkbox labeled 'Use current curriculum'. The 'Program' section contains two dropdown menus: 'Degree *' (set to 'Bachelor of Business Admin') and 'Catalog year *' (set to '2018-2019'). The 'Areas of study' section contains four dropdown menus: 'Major (0/86)', 'Minor (0/102)', 'Concentration (0/0)', and 'Specialization (0/3)'. The 'Future classes' section has two input fields for 'Subject' and 'Number', followed by an 'Add' button.

To generate a **What-If Analysis**, select the level, degree, catalog year, major, minor, and concentration (if applicable), that you would like to audit your class history against, in the dropdown menus provided.

What-If Analysis

Use current curriculum

When selecting the criteria for a What-If analysis, make sure the proposed combinations are valid. (Ex: A major in Accounting can only be completed with a Bachelor of Business Administration Accounting degree, so selecting a Bachelor of Arts in the degree field will display an error and will not process a What-If analysis)
