In an attachment, please respond to all questions that follow. Please observe the word limits.

1. Explain how you plan to incorporate research in your undergraduate course (methodology).
Explain what your research components are and how it relates to your course. Include anticipated enrollment. (500 words maximum)
2. Develop Student Learning Outcomes related to your course:
Explain what students will be learning and how they will be able to apply their newfound skills in the world of work. (500 words maximum)
For example: A student will be able to...
3. Explain how you will be assessing your redesigned course. Strategies must be designed to assess how specific changes in your redesigned course have impacted student learning outcomes. (500 words maximum)
4. Provide a copy of your current syllabus and a copy of your proposed syllabus. Please highlight proposed changes as it will make the reviewing process less time consuming for the faculty committee. *Team-taught courses must specify each instructor's contribution.
5. Provide your chair's or dean's signature.
6. Provide your rationale for a URL and/or Tutor in your application, if applicable.
 - The Title V FP2S grant will collect data for the redesigned course by tracking student participation, course grade rates as well as the undergraduate graduation rates to assess the impact of the redesigned course on student achievement as compared to students who do not participate in courses integrated with undergraduate research components. Pre- and post-surveys will also be collected at the start and end of the semester. Ms. Aracely Negrete will contact faculty to discuss survey administration dates.
